# HRC60MA-2BN

## ZANHO Cutting Tools

## Feature

- **Aluminum Deep-Reach Specialist:** Specifically engineered with a **Long Neck** design for high-precision **Deep-Pocket 3D Profiling** in aluminum and non-ferrous metals.
- **Interference-Free Design:** The reduced shank neck allows for smooth machining of deep slots and narrow cavities without the risk of tool collision.
- **Sharp & Clean Cutting: Uncoated (Bright)** carbide substrate provides the sharpest edge possible, effectively preventing chip welding and ensuring a high-gloss surface finish.
- **Workpiece Compatibility:** Best suited for **Aluminum, Copper, and Plastics** (Workpiece category N).
