KNA750M-2B

ZANHO Cutting Tools

Feature

- **Micro Precision Specialist:** Specifically engineered for ultra-fine **3D Profiling** and intricate contouring with micro radius sizes from **R0.05 to R0.45**.
- **Premium AlCrN Coating:** Features advanced **AlCrN Coating** for superior thermal stability and wear resistance on delicate micro cutting edges.
- **Optimized Geometry: 30° Helix Angle** provides the perfect balance between chip evacuation and tool rigidity for stable micro-milling.
- **Workpiece Compatibility:** Best suited for Carbon Steel, Alloy Steel, and Stainless Steel with hardness **up to 52 HRC**

Descriptions

Order Number	Specification	D	L1
KNA750M-2B-00102	R0.05*D4*50L*2F	0.1	0.2
