MFR-Boring Cutter

ZANHO Cutting Tools

ZANHO

MFR

BORING CUTTER

Feature

- **Face Grooving Specialist:** Specifically engineered for ultra-fine **Internal Face Grooving** and slotting in small diameters, starting from a minimum hole size of **4.0mm**.
- **Precise Groove Widths:** Features an extensive selection of precision-ground blade widths from **0.75mm to 3.0mm**, ideal for high-tolerance internal face seals and O-ring grooves.
- **Superior Stability:** Optimized tool geometry minimizes vibration and tool deflection during end-face operations, delivering an exceptional surface finish.
- **Workpiece Compatibility:** Highly effective for processing Carbon Steel, Alloy Steel, Stainless Steel, and Hardened Materials with high speed and stability.
- **Versatile Sizing:** Full range of processing diameters from D4.0 to D8.0 with varied effective lengths (L15 to L30) to meet diverse precision CNC requirements.
