KNA700-4S-SQUARE

ZANHO Cutting Tools

Feature

- **Design: Variable Helix (38°/40°)** and unequal division to suppress chatter and resonance.

- **Performance:** Drastically reduces vibration during high-speed milling for a smooth surface finish.
- **Coating:** Premium **AD Coating** (Gold/Black) for high oxidation and wear resistance.
- **Application:** Optimized for Carbon Steel, Alloy Steel, and Stainless Steel (**Up to 45 HRC**).
- **Benefit:** Ideal for stable, high-efficiency machining with significantly reduced tool noise.

Descriptions
