MIR-Boring Cutter

ZANHO Cutting Tools

ZANHO

MIR

BORING CUTTER

Feature

- **Internal Threading Expert:** Specifically engineered for ultra-fine **Internal Thread Cutting** in small diameters, starting from a minimum hole size of **3.0mm**.
- **Versatile Thread Angles:** Available in both **60° (Metric/UN)** and **55° (Whitworth)** profiles to meet diverse global industrial threading standards.
- **Stable Geometry:** Optimized tool structure to minimize vibration and deflection during the high-precision threading cycle, ensuring smooth thread surfaces.
- **Workpiece Compatibility:** Highly effective for Carbon Steel, Alloy Steel, Stainless Steel, and Cast Iron with high-speed performance.
- **Massive Spec Selection:** Full range of processing diameters (D3 to D8) with various effective lengths (L1) to suit specific precision machining requirements.
