KNA750-4SL

ZANHO Cutting Tools

Feature

- **Deep Machining Specialist: Extended Flute (Long Flute)** design allows for efficient deep side milling and deep-cavity machining beyond the reach of standard tools.
- **Premium AlCrN Coating:** Features advanced **AlCrN Coating** for superior heat resistance and anti-oxidation, significantly extending tool life in tough materials.
- **Engineered for Stability:** Optimized HRC52 grade carbide substrate provides high rigidity to minimize tool deflection even with an extended cutting length.
- **Workpiece Compatibility:** Highly recommended for **Carbon Steel, Alloy Steel, Stainless Steel, and Mold Steel** (Up to 52 HRC).
- **Smooth Cutting: 35° Helix Angle** balances cutting force and stability for a high-quality surface finish in long-reach applications.
