PA100-3S-SQUARE

ZANHO Cutting Tools

Feature

- **Surface Finish:** Specifically designed to achieve a **mirror-like finish** and eliminate burrs on the workpiece.
- **Helix Angle: 45° Helix Angle** for stable, vibration-free cutting during fine finishing.
- **Workpiece:** Ideal for **Aluminum Alloy, Copper Alloy, and Plastics** (Workpiece category N).
- **Advantage:** High-precision grinding ensures tight tolerances and exceptional surface quality.
