

# KNA800 Series

## Product Images

## Summary

Features and benefits

- Tool Material: UMG carbide
- Helix angle: 45°
- Carbide Rod: GU092
- Tolerance: Dia.  $\pm 0.012$  (0~0.015) Dia.  $\pm 0.012$  (0~0.02)
- Special cutting edge designed according to the condition of moldworking industry , suitable for high-speed machining
- Recommended workpiece: HRC $\leq 60$ , hardened steel/tool steel etc. SKD11, SKD61, 718H, S316, NAK80, Cr12MoV, 2316..
