HRC60-6S

CARBIDE END MILL FOR FINISHING

Summary

- **Ultimate Surface Finish: 6-Flute Design** provides a higher number of cutting edges, allowing for faster feed rates and delivering a superior surface finish in side milling.
- **Advanced AlCrN Coating:** Features premium **AlCrN Coating** for exceptional heat resistance and low friction, effectively extending tool life in abrasive steels.
- **Precision Stability: 45° High Helix Angle** ensures stable, low-vibration cutting performance during high-speed finishing operations.
- **Workpiece Compatibility:** Optimized for **Steel, Mold Steel, and Alloy Steel** with hardness up to 58 HRC.
