KNA700 VARIABLE HELIX END MILL

KNA700G-2B

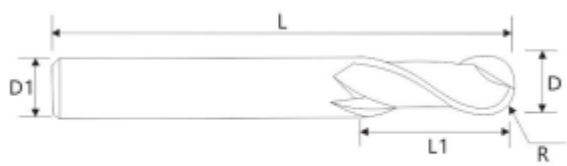

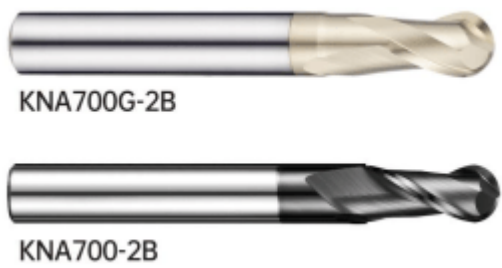

KNA700-2B

Summary

- **Design:** Anti-vibration unequal division to suppress resonance during 3D contouring.

- **Application:** Specialized for 3D profiling, copy milling, and finishing on complex surfaces.
- **Coating:** High-performance **AD Coating** (Gold/Black) for superior wear resistance.
- **Workpiece:** Best for Carbon Steel, Alloy Steel, and Stainless Steel (**Up to 45 HRC**).
- **Range:** Comprehensive precision sizes from R0.5 to R10.0 for diverse CNC needs.
- **Benefit:** Achieves a superior surface finish by eliminating chatter and tool noise.
