KNA700-4R

KNA700 VARIABLE HELIX END MILL

KNA700G-4R

KNA700-4R

Summary

- **Anti-vibration Design:** Unequal division and **38°/40° variable helix** to suppress chatter and resonance.
- **Durable Corner Radius:** Enhanced edge strength (Bull Nose) prevents chipping, ideal for stable, high-efficiency milling.
- **High Performance Coating:** **AD Coating** for excellent oxidation resistance and extended tool longevity.
- **Workpiece:** Specialized for Carbon Steel, Alloy Steel, and Stainless Steel (**Up to 45 HRC**).
- **Benefit:** Achieves a superior surface finish and precision in demanding CNC operations.
