

Carbide Center Drill

ZANHO Cutting Tools

CENTER DRILL

CARBIDE CUTTER

Feature

- **Accurate Centering: 60-Degree Center Holes**, preventing drill walk and ensuring perfect alignment for subsequent drilling or lathe operations.
- **Premium TIAISIN Coating**: Advanced TiSiN coating provides exceptional heat resistance and tool life, maintaining sharp cutting edges in high-speed CNC environments.
- **Double-Ended Efficiency**: Features a **Double-Ended** design, effectively doubling the tool life and providing superior value for high-volume production.
- **High Rigidity Substrate**: Made from premium solid carbide to minimize vibration and deflection, ensuring strict dimensional accuracy in center-hole diameters.
- **Workpiece Compatibility**: Highly effective for Carbon Steel, Alloy Steel, Stainless Steel, and Hardened Steel with high stability.
