

CCGT-ZL

ZANHO Cutting Tools

CCGT-ZL

Finishing Inserts

Feature

ZANHO **CCGT-ZL series**: High-precision ground **80° rhombic inserts** designed for fine finishing. Features an **ultra-sharp edge** and wide chipbreaker to minimize cutting pressure, combined with

uniform passivation for superior wear and corrosion resistance. Delivers exceptional surface quality and dimensional stability in precision CNC turning.

Descriptions

Technical Features

- **Sharp Cutting Edge:** Wide chipbreaker design significantly reduces cutting pressure and heat.
- **Uniform Passivation:** Precision edge honing forms a protective layer, maximizing tool life.
- **Enhanced Durability:** High resistance to wear and corrosion for stable long-run production.
- **High-Precision Ground:** G-class ground periphery ensures exceptional repeatability.
- **Optimized Chip Control:** Excellent evacuation performance even at low depth of cut.

CCGT-ZL Dimensions (mm)

Designation	L	øI.C	S	D1	RE
CCGT060201-ZL	6.4	6.35	2.38	2.8	0.1
CCGT060202-ZL					0.2
CCGT060204-ZL					0.4
CCGT09T3005-ZL	9.7	9.525	3.97	4.4	0.05
CCGT09T301-ZL					0.1
CCGT09T302-ZL					0.2
CCGT09T304-ZL					0.4
