

Single-Tooth for UN (American) Threads

ZANHO Cutting Tools

TB100-1S(UN)

THREADING MILLS

Feature

- **UN Standard Specialist:** Specifically designed for high-precision American Unified Threads, covering **UNC (Coarse), UNF (Fine), and UNS (Special)** standards.
- **Universal Single-Tooth Design:** Allows one tool to machine multiple thread pitches for the same UN profile, significantly reducing tooling costs and inventory requirements.
- **Micro to Large Capacity:** Extensive range from micro **#0-80UNF** threads up to large **1"** industrial thread components.
- **Multi-Material Performance:** Optimized for stable and accurate results in Carbon Steel, Stainless Steel, Cast Iron, and Aluminum.
- **Premium Carbide Substrate:** Made from high-quality micro-grain carbide to ensure exceptional edge sharpness and a superior surface finish.
