BSPT(RC) Taper Pipe Thread Mill

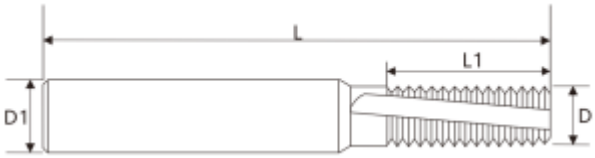

ZANHO Cutting Tools

Feature

- **BSPT Taper Specialist:** Specifically engineered for cutting high-quality **BSPT (R, RC), PT, and ZG** tapered pipe threads with a precise 55° thread angle.
- **Pressure-Tight Sealing:** Optimized for producing leak-proof, pressure-resistant joints essential for industrial piping and hydraulic systems.
- **Wide Pipe Standard Coverage:** Covering pipe sizes from **RC1/16-28** up to **RC1"-11** to meet all industrial fluid power requirements.
- **Robust Performance:** Suitable for Carbon Steel, Stainless Steel, and Hardened Alloys, providing excellent tool life and superior surface finish.

Descriptions

??? Order Number	?? Specification	?? D	??? L1
TB100-RC0116028	RC1/16-28	5.8	12
TB100-RC0108028	RC1/8-28	7.95	15
TB100-RC0104019	RC1/4-19	9.95	20
TB100-RC0308019	RC3/8-19	11.9	20
TB100-RC12102014	RC1/2-14	11.9	25
