CNMG-MT

ZANHO Cutting Tools

MT

Chip-breaker

Feature

- **Standard 80° Rhombic Geometry:** Negative rhombic inserts designed for high edge strength and superior reliability in professional CNC turning.
- **MT Chipbreaker Specialist:** Features the high-performance **MT Profile**, specifically engineered to handle stable chip control at increased depths of cut and feed rates during **Medium Machining**.
- **Exceptional Operating Range:** Optimized for feed rates (fn) between 0.15-0.55 mm/rev, ensuring high metal removal rates with minimal tool vibration.
