CT-3C

ZANHO Cutting Tools

Feature

- **Edge Finishing Expert:** Specifically engineered for high-precision **Chamfering and Deburring** operations, ensuring clean and consistent edge profiles.
- **3-Flute High Stability:** 3-flute design offers superior balance and a smoother surface finish compared to conventional 1 or 2 flute chamfer tools.
- **Versatile Degree Options:** Available in **60°, 90°, and 120°** angles to meet a wide range of industrial chamfering and V-groove requirements.
- **Broad Size Range:** Extensive selection from D4 to D20 diameters to accommodate various chamfer widths and depths.
