DLC-U-3SS

ZANHO Cutting Tools

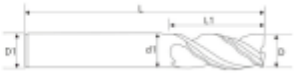

Feature

- **Design Advantage: Short Flute Design** provides exceptional tool rigidity, minimizing deflection for higher dimensional accuracy in finishing.
- **Premium Coating: DLC Coating** offers extreme hardness and an ultra-low friction coefficient, preventing aluminum adhesion and ensuring a mirror finish.
- **High Efficiency: 45° Helix Angle** facilitates smooth, high-speed cutting and rapid chip removal.
- **Stability:** 3-Flute structure optimized for stable milling operations with reduced vibration.
