HRC55-2B

ZANHO Cutting Tools

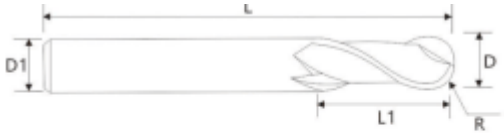

Feature

- **Material:** High-quality **Tungsten Steel** (Carbide) substrate for superior toughness.

- **Coating:** Advanced **AlTiN Coating** for excellent thermal stability and wear resistance.
- **Helix Angle: 35° Helix Angle** provides a balanced cutting performance and stable chip removal.
- **Workpiece:** Ideal for Carbon Steel, Alloy Steel, and Stainless Steel (**Up to 55 HRC**).
- **Versatility:** Excellent for mold finishing and machining complex curved surfaces.
