HRC60-3SL

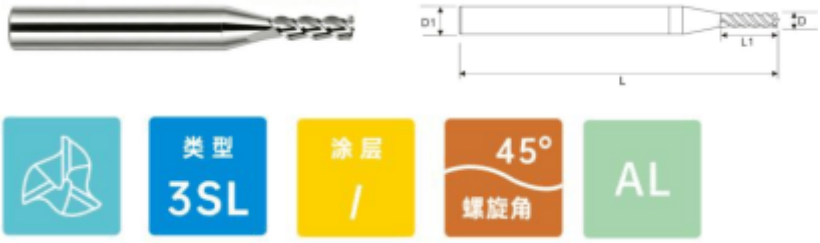

ZANHO Cutting Tools

Feature

- **Deep Machining: Extended Flute (Long Flute)** design allows for efficient deep side milling and slotting in one pass where standard tools cannot reach.
- **Sharp Cutting Edge: Uncoated (Bright)** carbide substrate with polished flutes ensures maximum sharpness, effectively preventing chip welding and heat buildup.
- **High Efficiency: 45° High Helix Angle** provides smooth cutting action and rapid chip evacuation, delivering an exceptional surface finish.
- **Diverse Sizes:** Available in precise diameters from D1 to D4 with multiple L1/D ratio options.
