HRC60-4R-CORNER RADIUS

ZANHO Cutting Tools

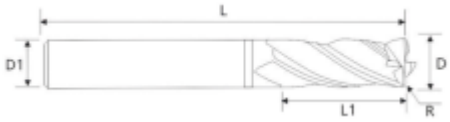

Feature

- **Type:** 4-Flute Corner Radius (Bull Nose) design for enhanced edge strength and reduced chipping.
- **Hardness:** Specifically designed for processing hardened steel and mold steel **up to 60 HRC** .
- **Coating:** High-performance **AlCrN Coating** for superior heat resistance and tool life in hard materials.
- **Helix Angle: 45° Helix Angle** ensuring stable cutting forces and excellent surface finish.
- **Durability:** R-angle protection significantly extends tool life during heavy-duty profiling and side milling.
