# HRC60-4RN

## ZANHO Cutting Tools

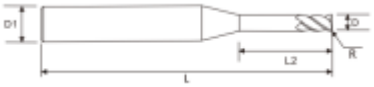

## Feature

- **Deep Reach Specialist:** Engineered with a **Long Neck** design specifically for stable **Deep-Pocket and Profiling** operations where standard tools cannot reach.
- **Enhanced Edge Strength: Corner Radius (Bull Nose)** design protects the cutting edge from premature chipping, significantly extending tool life in hard steels.
- **4-Flute High Rigidity:** Provides superior tool stiffness and a high-quality surface finish, making it ideal for precision finishing in narrow cavities.
- **Premium TIAISIN Coating:** Advanced TiSiN coating ensures exceptional heat resistance and durability for high-speed machining.
- **Precision Specs:** Available in diameters D1 to D3 with precision R-angles (R0.2-R0.5) and varied neck lengths for complex mold work.
