HRC60-4SL

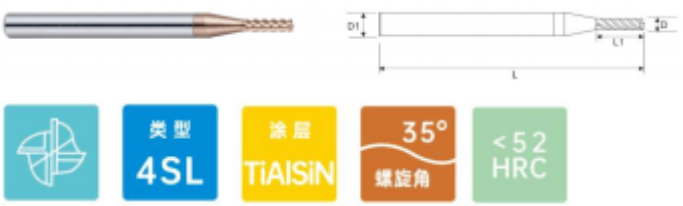

ZANHO Cutting Tools

Feature

- **Deep Machining Expert: Extended Flute (Long Flute)** design is optimized for deep-reach side milling and deep-pocket slotting that standard tools cannot perform.
- **Superior Coating: TiAlSiN (TIAISIN) Coating** provides exceptional red-hardness and oxidation resistance, making it ideal for high-speed dry cutting.
- **High Rigidity:** Engineered with HRC60 grade tungsten carbide to maintain tool stability and minimize vibration during deep-profile machining.
- **Precision Specs:** Available in diameters D1 to D4 with high L1/D ratios (up to 8 times the diameter) for specialized CNC tasks.
