KNA700G-4S-SQUARE

ZANHO Cutting Tools

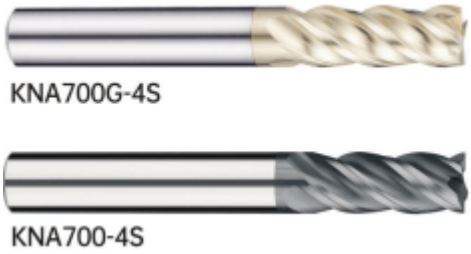

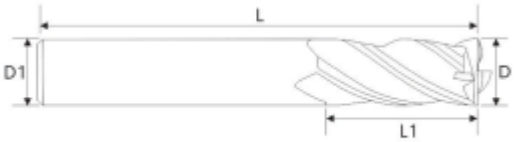

Feature

- **Design: Variable Helix (38°/40°)** and unequal division to suppress chatter and resonance.

- **Performance:** Drastically reduces vibration during high-speed milling for a smooth surface finish.
- **Coating:** Premium **zrn Coating** (Gold/Black) for high oxidation and wear resistance.
- **Application:** Optimized for super alloy.
- **Benefit:** Ideal for stable, high-efficiency machining with significantly reduced tool noise.
