KNA800-4S-SQUARE

ZANHO Cutting Tools

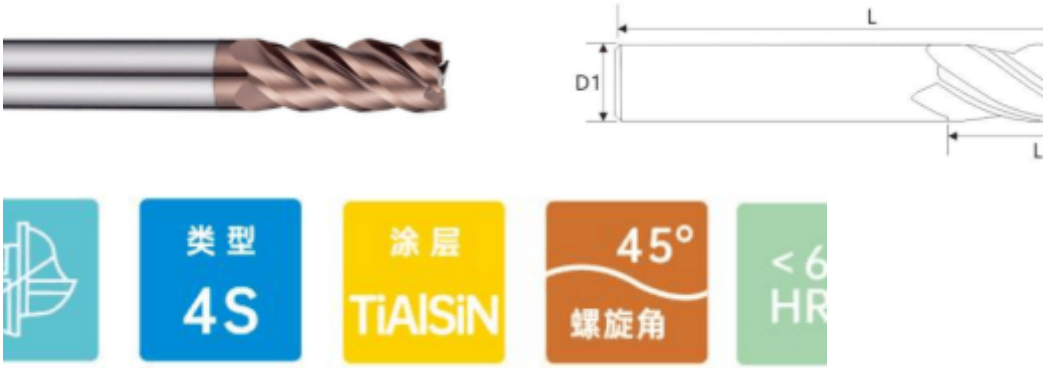

Feature

- **Specialty:** Precision-engineered for **Hardened Mold Steel** and extreme-hardness materials.

- **Hardness:** Capable of stable and efficient machining for workpieces **up to 65 HRC**.
- **Design: 45° Helix Angle** ensures stable cutting forces and superior surface finish in hard metals.
- **Material: Ultra-fine micro-grain carbide** substrate for maximum edge strength and anti-chipping performance.
- **Application:** Ideal for high-speed CNC machining in mold making and hardened component processing.

Descriptions

??? Order Number	?? Specification	?? D
KNA800-4S-01003	D1*D4*50L*4F	1
KNA800-4S-01504	D1.5*D4*50L*4F	1.5
