MPR-Boring Cutter

ZANHO Cutting Tools

ZANHO

MPR

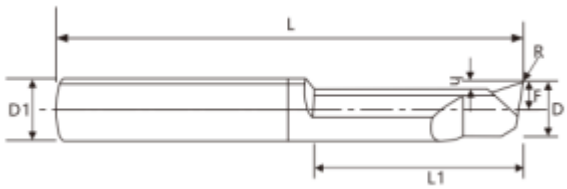

BORING CUTTER

Feature

- **Internal Profiling Expert:** Specifically engineered for ultra-fine **Internal Boring and Profiling** in small diameters, starting from a minimum hole size of **2.0mm**.
- **Precision Radii:** Features an extensive range of precision-ground tip radii (R0.1 to R0.4), ensuring exceptional surface finish and dimensional accuracy in complex internal contours.
- **Stable Finishing:** Specifically optimized geometry to minimize vibration and tool deflection, allowing for stable and accurate finishing in deep-reach internal cavities.
- **Workpiece Compatibility:** Highly effective for Carbon Steel, Alloy Steel, Stainless Steel, and Hardened Materials.
- **Versatile Sizing:** Full range of processing diameters from D2.0 to D8.0 with varied effective lengths (L10 to L30) to meet diverse precision machining requirements.
