MUR-Boring Cutter

ZANHO Cutting Tools

ZANHO

MUR

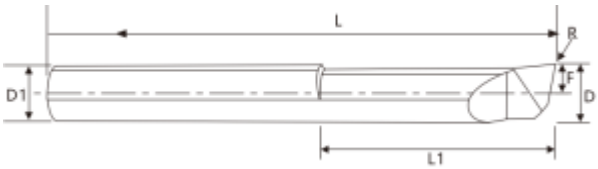

BORING CUTTER

Feature

- **Profiling Specialist:** Specifically engineered for ultra-fine **Internal Copying and Profiling** in small diameters, starting from a minimum hole size of **3.0mm**.
- **Precision Tip Radii:** Features an extensive selection of precision-ground tip radii from **R0.05 to R0.4**, allowing for exceptional surface finish and dimensional accuracy in complex internal profiles.
- **Optimized for Finishing:** Specialized tool geometry minimizes vibration and tool deflection, ensuring strict dimensional tolerances and a high-quality surface finish in internal cavities.
- **Workpiece Compatibility:** Highly effective for processing Carbon Steel, Alloy Steel, Stainless Steel, and Hardened Materials.
