Spiral Flute-Steel

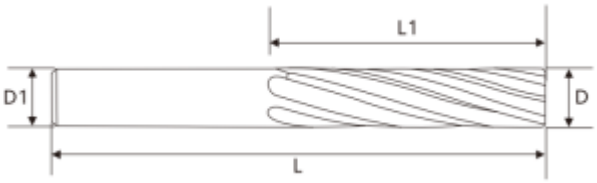

ZANHO Cutting Tools

Feature

- **Blind Hole Specialist:** Features a **Spiral Flute** design that lifts chips upwards, making it the ideal choice for high-precision reaming in blind holes and deep cavities.
- **Smooth Interrupted Cutting:** The helical geometry ensures constant contact with the hole surface, providing stable performance even in holes with keyways or cross-holes.
- **Optimized Stability:** Multi-flute (4F/6F) construction offers high tool stiffness and minimizes vibration for a superior surface finish.
- **Massive Spec Selection:** Comprehensive range from D2.0 to D20.0 with standard and extended length versions to suit specific CNC machining setups.

Descriptions

Steel Order Number	Specification	D	
SR-4S-01025	D1.0*25H*D4*50L*4F	1	
SR-4S-01525	D1.5*25H*50L*4F	1.5	
SR-4S-02025	D2.0*25H*50L*4F	2	
SR-4S-02525	D2.5*25H*50L*4F	2.5	
SR-4S-03025	D3.0*25H*50L*4F	3
