Three-Tooth UN for Aluminum

ZANHO Cutting Tools

ZANHO

TA100-3S(UN)

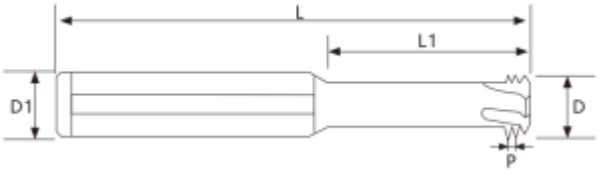

THREADING MILLS

Feature

- **Optimized Stability:** Features a specialized **3-Tooth Design** that provides superior guidance and reduced vibration compared to single-tooth tools, ensuring perfect thread profiles.
- **Non-Stick Aluminum Specialist: Uncoated (Bright)** mirror-polished flutes prevent material adhesion and chip welding, delivering a burr-free, high-gloss surface finish.
- **Precise UN Standards:** Specifically engineered for high-precision American Unified Threads, covering **UNC (Coarse), UNF (Fine), and UNEF (Extra Fine)** specifications.
