TNGG-ZH

ZANHO Cutting Tools

TNGG-ZH

Finishing Inserts

Feature

ZANHO **TNGG1604 series**: High-precision **finishing inserts** specifically engineered for all stainless steel types, including Austenitic, Martensitic, and Ferritic grades. Designed for

exceptional sharpness and wear resistance, these inserts deliver superior surface smoothness and precise dimensional control in fine CNC turning applications.

Descriptions

Core Advantages

- **Finishing Specialist:** Optimized for high-precision finish machining (???).
- **Stainless Steel Focus:** Excellent performance on Austenitic, Martensitic, and Ferritic grades.
- **Sharp & Durable:** Ultra-sharp cutting edge provides low cutting force and high wear resistance.
- **Surface Excellence:** Achieves superior surface smoothness and high dimensional accuracy.

TNGG1604 Dimensions (mm)

Designation	L	øI.C	S	D1	RE
TNGG160401-ZH	16.5	9.525	4.76	3.82	0.1
TNGG160402-ZH					0.2
