VCGT-ZH

ZANHO Cutting Tools

Feature

ZANHO **VCGT1103-ZH series**: High-precision **finishing inserts** optimized for Austenitic, Martensitic, and Ferritic stainless steels. Features an **ultra-sharp edge** and exceptional wear

resistance, delivering superior surface smoothness and tight dimensional tolerances in CNC turning.

Descriptions

Core Advantages

- **Finishing Specialist:** Optimized for high-precision finish machining (???).
- **Stainless Steel Focus:** Ideal for Austenitic, Martensitic, and Ferritic grades.
- **High Surface Quality:** Delivers superior smoothness and optical-grade finish.
- **Sharp & Wear-Resistant:** Sharp geometry reduces heat and extends tool life.

VCGT1103 Dimensions (mm)

Designation	L	øI.C	S	D1	RE
VCGT110301-ZH	11	6.35	3.18	2.8	0.1
VCGT110302-ZH					0.2
